SECTION 3 — HAZARDS IDENTIFICATION*****POTENTIAL HEALTH EFFECTS*******Routes of entry:** Inhalation, ingestion, skin and eye contact.**Signs and symptoms of short-term (acute) exposure:***Inhalation:* High concentration of mist or spray will cause irritation to the eyes, nose, throat and lungs. Entry of liquid into lungs can cause swelling (edema).*Skin contact:* Irritating to skin. May cause redness, pain or itching.*Eye contact:* Contact can result in pain, redness and watering, with possible corneal damage.*Ingestion:* Harmful if swallowed. May cause nausea, vomiting and diarrhea.**Effects of long-term (chronic) exposure:** Prolonged skin contact may cause dermatitis.**Other important hazards:** None reported.**SECTION 4 — FIRST AID MEASURES****Inhalation:** Remove victim to fresh air. If symptoms persist, call a physician.**Skin contact:** Flush skin with plenty of water, while removing contaminated clothing. Call physician if irritation or rash persists after washing. Wash contaminated clothing before reuse.**Eye contact:** IMMEDIATELY flush eyes with running water for at least 15 minutes, keeping eyelids open. Call physician immediately.**Ingestion:** Immediately call physician. DO NOT induce vomiting. Give several glasses of water. Never give anything by mouth if victim is unconscious or convulsing.

SECTION 5 — FIRE FIGHTING MEASURES

Fire hazards/conditions of flammability: Not flammable. May decompose if heated to very high temperatures.

Flash point (Method): Not applicable.

Lower flammable limit (% by volume): n/ap

Upper flammable limit (% by volume): n/ap

Suitable extinguishing media: Use extinguishing materials that are appropriate for surrounding burning material.

Special fire-fighting procedures/equipment: Fire-fighters should wear appropriate respiratory protection.

Hazardous combustion products: Decomposition may release toxic oxides of carbon, nitrogen and sulphur.

SECTION 6 — ACCIDENTAL RELEASE MEASURES

Personal precautions: Wear adequate personal protective equipment (see Section 7). Wash thoroughly after handling. Area of spill will be slippery.

Environmental precautions: Avoid release of spilled material into waterways such as streams and lakes.

Spill response/Cleanup: Recover and reuse as much of the product as possible. Absorb remainder with inert absorbent, such as vermiculite or paper towels. Gather up absorbent and place in corrosion-resistant containers, such as plastic, for disposal. Flush area with lots of water to remove slippery residue.

SECTION 7 — HANDLING AND STORAGE

Safe handling procedures: Avoid contact with eyes and clothing. Avoid prolonged contact with skin. Wear proper protective equipment, including rubber gloves while handling.

Storage requirements: Store in a cool, dry area. Keep away from incompatible materials (see Section 10).

Special packaging materials: Rustproof materials recommended.

SECTION 8 — EXPOSURE CONTROLS AND PERSONAL PROTECTION

Ventilation and engineering controls: General ventilation should be adequate, unless spray is generated.

Respiratory protection: Normally not required. If respiratory irritation occurs, use respirator approved for mists.

Protective gloves: Rubber or neoprene gloves are recommended if prolonged skin contact expected to occur.

Eye protection: Safety glasses or chemical goggles recommended.

Other protective equipment: As required by workplace standards. An eyewash station or other source of flowing water should be in the area.
